

A Higher Standard for Lowering Emissions.

Our Forged & Cast Steel Valves are Available in Low Emissions

- At Bonney Forge, our Forged and Cast Steel Valves now feature Bonney Forge Eco-Seal® Packing as a standard. Our valves meet API 622 2nd Edition requirements with no leak greater than 100 ppm.
- Valve Testing Performance: Bonney Forge Cast and Forged Gate and Globe Valves have been tested to API 622 2nd Edition (1510 Mechanical Cycles, 5 Thermal Cycles) with third party validated leak rates below 50 ppm.
- We use state-of-the-art testing equipment to perform helium leak test sampling on all production valves ensuring that our "Low E" valves are the highest quality available as a standard.
